HOUT

WOOD FLOORING

FB HOUT  
UNLIMITED WOOD DESIGN

# INTRODUCTION

**FB Hout has been founded in 1986. Since that time we have developed ourselves and grown to a stage where we now have three production facilities, a distribution center and a head office from where our sales are coordinated.**

For over 30 years now, we have been passionate about producing the most exciting wood products and finishes for both floor and wall cladding. All our products are made in Europe and are produced with an emphasis on environmental responsibility. All our products are CE and Cradle to Cradle™ Bronze and many products are available in FSC as well.

FB Hout keeps striving for the highest quality in both products and service. We have the knowledge and experience necessary to come up with a solution for any demand a customer may have.

Our products are being used in residential, government, retail and commercial applications around the globe by some of the most well-known architects and designers. All provided through our global partners that we have been working with for years now. We have a great network around the world to provide the service required.

*'THERE IS ONLY ONE WAY, AND THAT IS THE RIGHT WAY; NOTHING ELSE IS GOOD ENOUGH'*

DISTRIBUTION WORLDWIDE**

*Our wood solely comes from responsibly managed forests and therefore we combat CO<sup>2</sup> emissions in one of the easiest ways. This is due to the fact that responsibly managed forests account as carbon reservoir and even after the wood has been cut, the CO<sup>2</sup> will be held by the product for a lifetime.*

*Besides all our products are Cradle to Cradle Certified™ Bronze. The advantage to you as a partner is that you comply with our product to the highest quality- and environmental requirements.*

# CRADLE TO CRADLE™

Nowadays Cradle to Cradle™ and circular economy are inseparably connected with one another. But what is this mean? And what does this mean for you as a partner? We would like to inform and assist you further.

## ***What is Cradle to Cradle™?***

Cradle to Cradle Certified™ is the ultimate form of sustainability and stands for waste is food. This means that the raw materials you use for production can be fully recycled, without losing any value.

FB+ Engineered Flooring is assessed on five criteria, namely:

1. Material Health
2. Material Reutilization
3. Renewable Energy & Carbon Management
4. Water Stewardship
5. Social Fairness

FB Hout is well reviewed on all the criteria and is one of the few wooden flooring manufacturers in the world that can carry the Cradle to Cradle™ certificate.

## ***What's in it for you?***

The advantage to you as a partner is that you comply with our product to the highest environmental requirements. These environmental requirements are very important in the current project market and will be essential in the future. You cannot ignore these changes and FB Hout can relieve you completely in this development. We only supply the most sustainable products as possible.

The revenue model can also be used to offer associated services and maintenance work.

Quality is vital for a product that is Cradle to Cradle Certified™. This is ensured by FB Hout by checks carried out annually by external agencies. This way, FB Hout can, therefore, guarantee the highest quality, which can support your selling point to your customer.

The product we offer gives you the opportunity, in a unique way, to separate your company from your competitors. FB Hout is one of the few Cradle to Cradle Certified™ wood suppliers. By distributing our products you will become a supplier of the most sustainable and innovative high-quality wooden floors.

*Discover the opportunities of unlimited wood design in our Business to Business Experience Center in The Netherlands.*

Select your favorite floor and pattern in the center of our inspirational showroom.

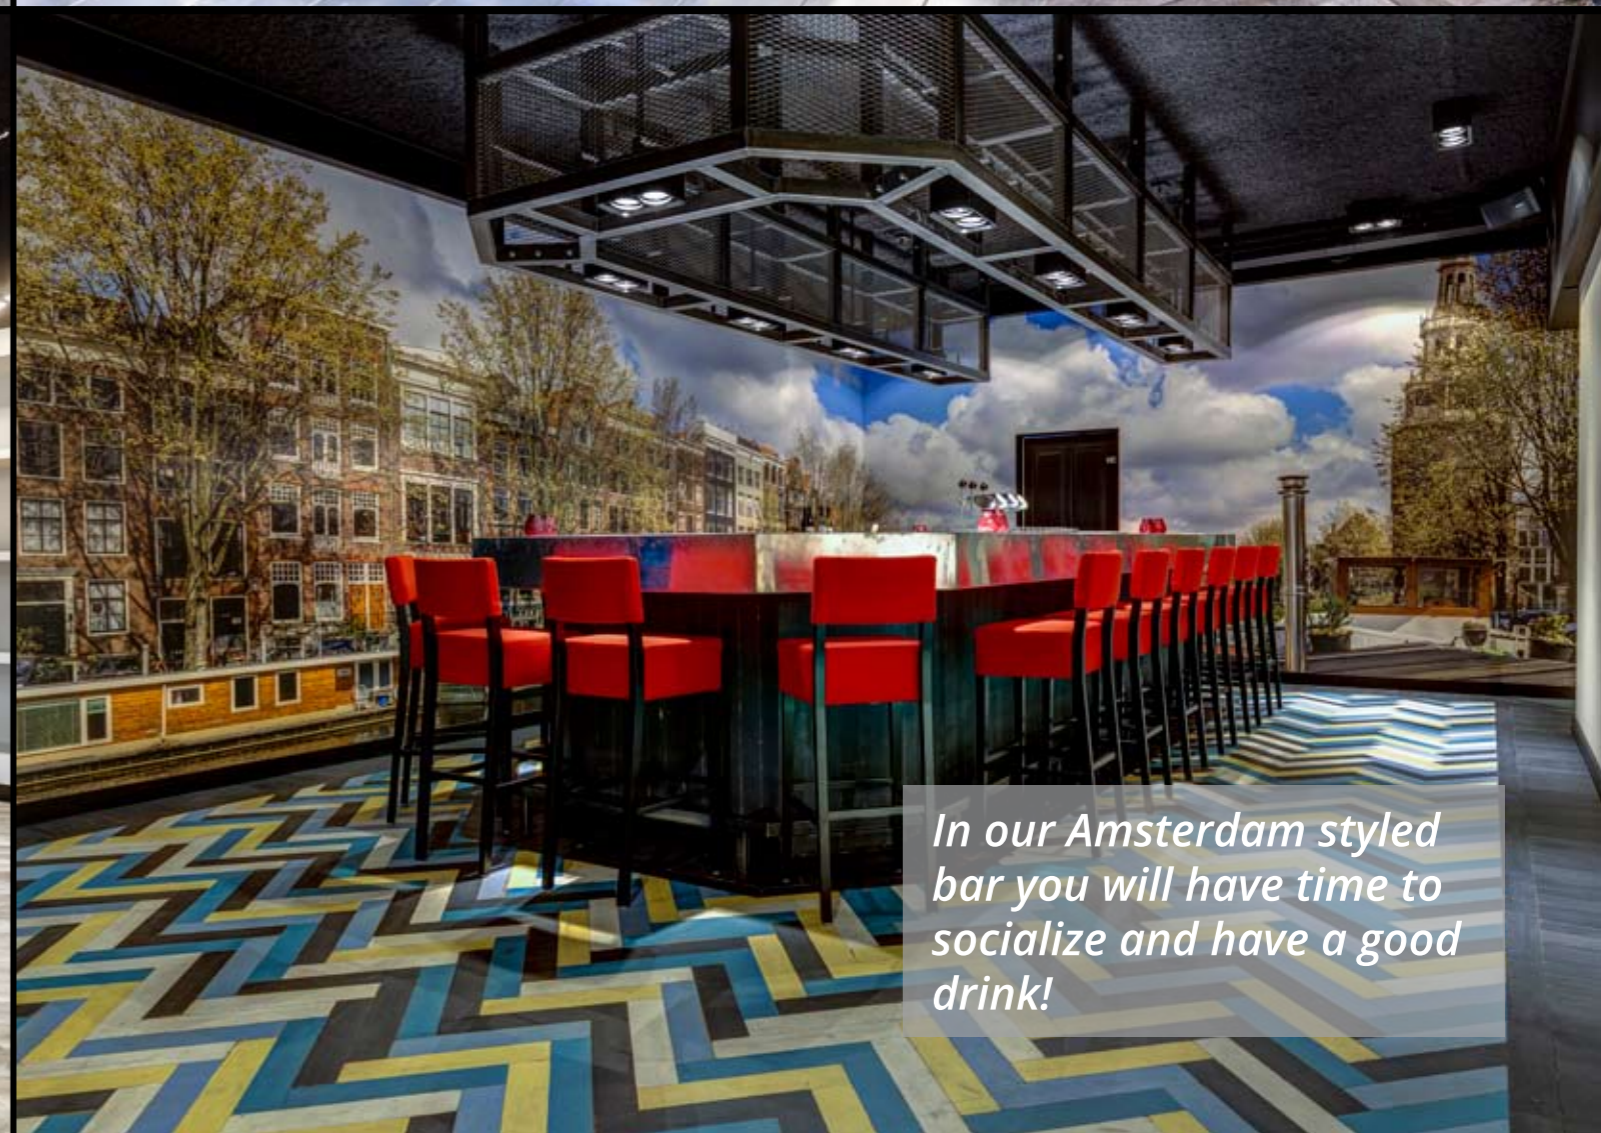

Create your own unique pattern and share it directly with your partners all over the world.

Our lounge is the perfect place for you and your partners to strengthen your business relationship.

In our Amsterdam styled bar you will have time to socialize and have a good drink!

# FB+ DESIGN PARQUET

These products, manufactured in Germany, are traditional parquet patterns with a modern look and quality. A pattern from earlier times with a contemporary convenience and look. We manufacture such patterns as Herringbone, Chevron and strip flooring. All manufactured entirely from our FB+ construction of waterproof birch plywood backing and European Oak top layer. All versions have been developed in close collaboration with international architects and designers.

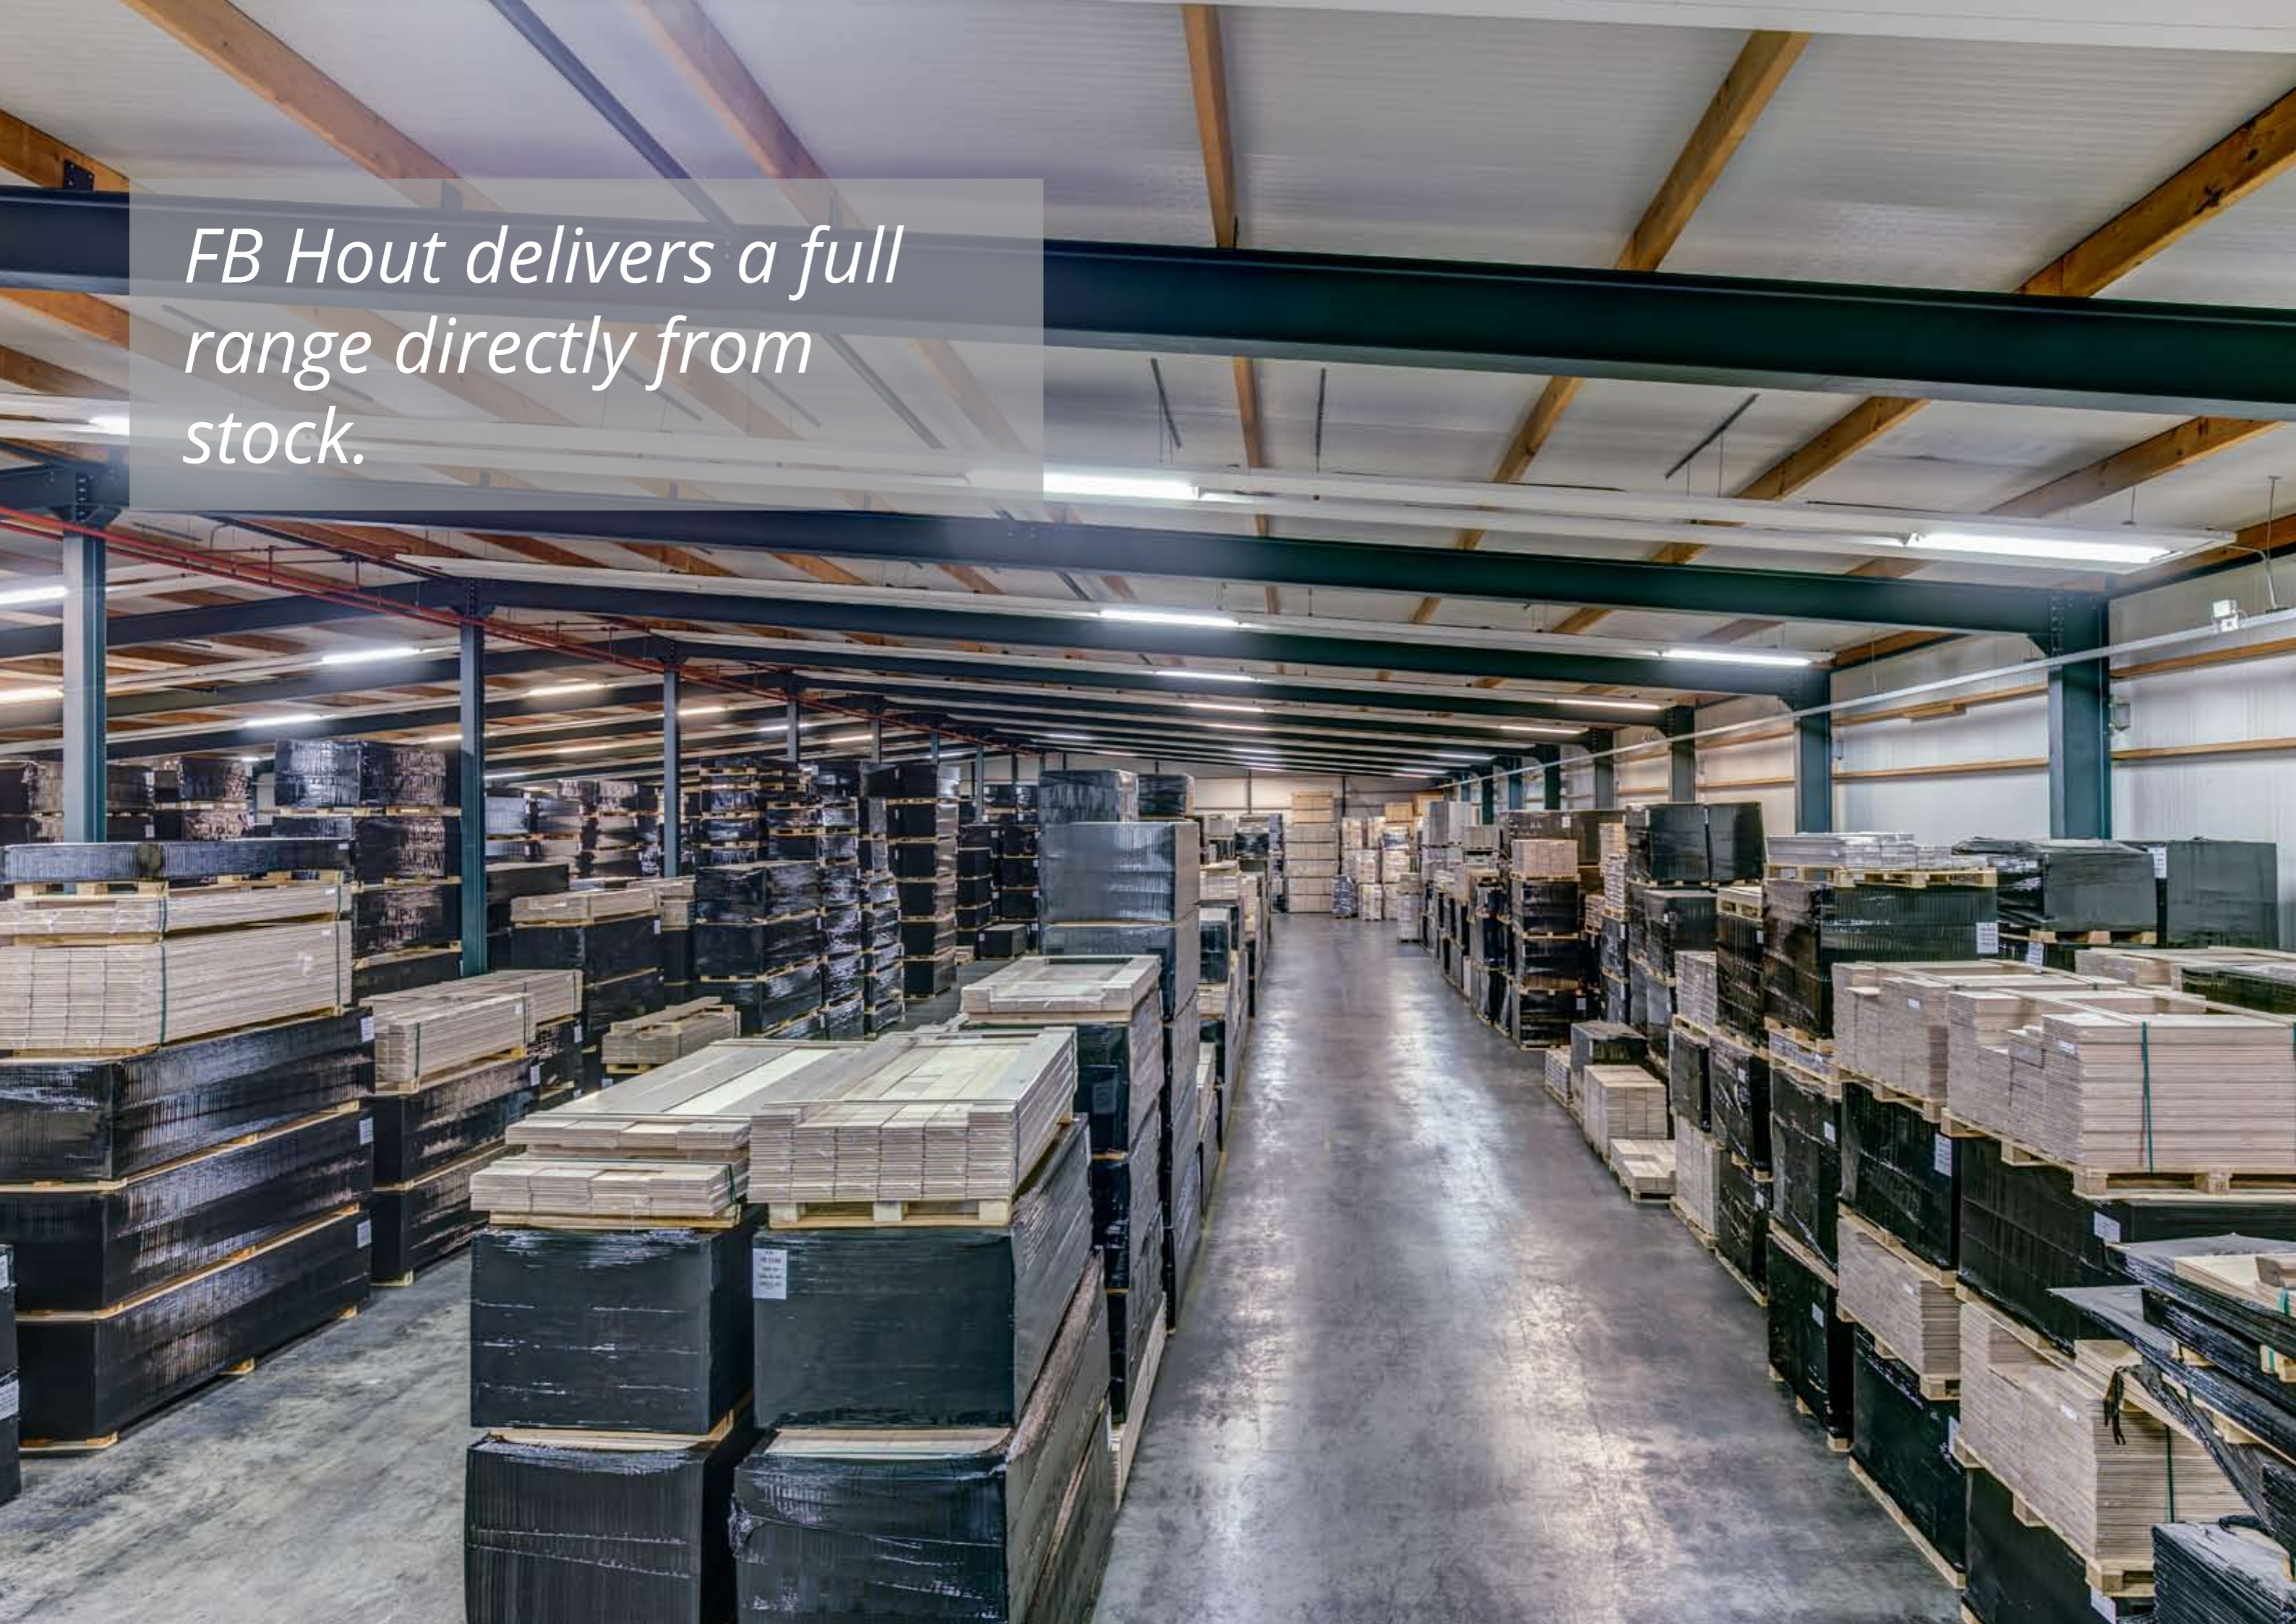

Available from stock in fixed dimensions of 120x600mm(Herringbone) and 120x525mm(Chevron).

All our products are:

- Available as FSC® certified: SKH-COC-000155
- **Cradle to Cradle Certified™ Bronze**
- CE certified

*FB Hout delivers a full range directly from stock.*

# FB+ DESIGN FLOORING

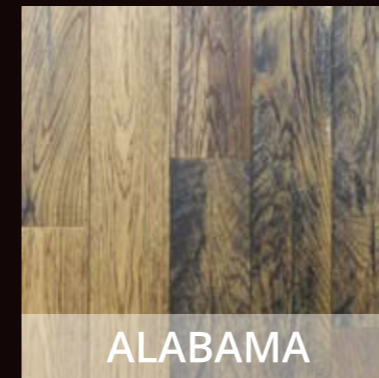

Since the foundation of FB Hout, we have always strived for Corporate Social Responsibility. Our wood solely comes from responsibly managed forests and therefore we combat CO<sup>2</sup> emissions in one of the easiest ways. This is due to the fact that responsibly managed forests account as carbon reservoir and even after the wood has been cut, the CO<sup>2</sup> will be held by the product for a lifetime. The more wood from responsibly managed forests is being used, the more CO<sup>2</sup> will be hold through reforestation. Did you know that the wood loss of our production process is being used to heat our drying rooms? Because of this, no single commodity is being lost. This are just a few points of how we apply with Corporate Social Responsibility.

This FB+ Design Flooring collection is being produced in Germany and available from stock for immediate collection through which it has a quick delivery time. The dimensions of our FB+ Design Flooring has many advantages as well, both logistically seen and installation wise.

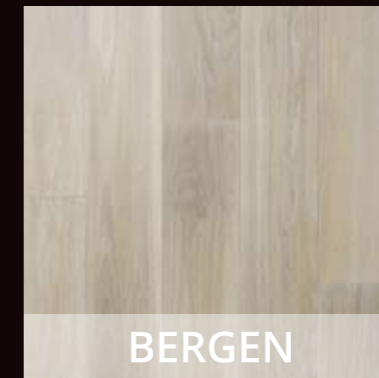

Available from stock in fixed dimension of 120x1200mm.

All our products are:

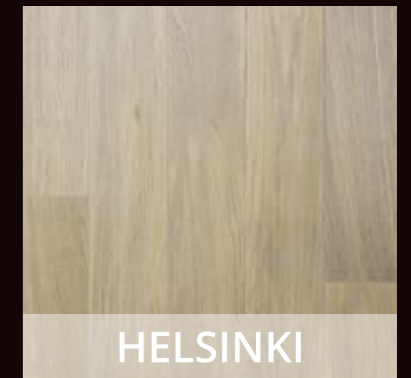

- Available as FSC® certified: SKH-COC-000155
- **Cradle to Cradle Certified™ Bronze**
- CE certified
